#### **Report**

#### **On World Environment Day**

**(05-06-2023)**

This day across World is celebrating World Environment Day on 5<sup>th</sup> June every year as to raise global awareness to take positive environmental action to protect nature and the planet earth. It is a day that reminds everyone on the planet to get involved in environment friendly activities. The theme for 2023 focuses on our role as the citizens of the Earth, to protect the environment and to encourage sustainable living everywhere and everyday. It has become imperative to talk about climate change, pollution and its effects and to be able to live in a healthy environment as our basic human rights.

The main objectives of United Nations behind declaration of World Environment day was to give a human face to environmental issues, Promote to change attitude towards the environment and partnership between each human being and each society to ensure a safe future.

#### **The detailed report is given below:**

The World Environment Day was celebrated with full energy in Civil Engineering Department, on 5<sup>th</sup> of June 2023. The program was conducted at B.I.E.T, Seminar Hall at 10:00 A.M. where 45 students and faculty members were present. The

Inaugural function started with a welcome speech by Mr. Praveen Yadav and by greeting Mr.Mohd.Wasiq, HOD, Civil Engineering Department. A Commencement of the program took place where second year students participated in Poster Making and Presentation competition, and at the end of program a Plantation done by the Head of the department, Faculty Members and Students. The program was full of awareness among people about saving our environment from various types of pollution and to plant more and more trees to make our mother full of greenery.

*The Students Participated in Poster making competition, the theme was
