‘EXPLORING PYTHON’

On **Thursday**, dated **22/06/2023**, our department of Information Technology has organized a Webinar on the topic **‘EXPLORING PYTHON’**. The Webinar was preceded by Dr. Anand Bihari. It was an informative session and was well conducted.

Students of 2nd Year participated in the session with full enthusiasm and dedication. It was a session with lots of new information regarding Python and the speaker made it more interesting by quoting some appreciable examples.

OBJECTIVE OF WEBINAR

- To disperse awareness among students regarding the importance of Python.
- To raise awareness and concern for problems that exists all across.
- The theme will highlight python learning in a lifelong learning perspective and therefore mainly focus on youth and adults.

Some of the Glimpses
